# Bridge Access Program NCIR Guidance

This document should be used as guidance for Bridge Access Providers only. If you need additional training and guidance on utilizing NCIR, please refer to the NCIR Quick Reference Guide or contact your <u>Regional Immunization Consultant</u>.

#### **ALL Bridge Providers**

The "Priority Group" functionality has been turned on in NCIR for all Bridge Providers. Upon logging in, you will see the pop-up below. Select "OK".

A pandemic exercise or event is in progress. Remember to screen your patients for a priority group	
	ОК

- 1) When documenting a dose, please ensure you select the correct Organization Site (if applicable)
- 2) Select a priority group from the dropdown. Depending on the dose given, you will need to select one of the following:
- Bridge
- Private
- VFC

New Immunizations (1)					
* Date Provided: 09/29/2023	* Ordering Authority	SQUEEZY, LEMO			
Eligibility as reported by Responsible Person: Priority Group	Not Insured		<b>▼</b>		
Event Description		Begin Date	End Date	Priority Groups	
Bridge program Priority Group Assignment: BRIDGE DOSE - BRIDGE	E DOSE	09/20/2023	12/31/2024	BRIDGE	~]
Immunization * Trade Name-Lot	Volume * Bo	dy Site	Route	* Administered By	Remove
COVID-19 Covid-19 Spikevax 2023-24\COVID1	23E 🗸 🛛 left a	arm 🔹	<ul> <li>intramuscular</li> </ul>	▼ PEASY, EASY	▶ □

3) Select eligibility and remaining doses information (e.g., lot number, body site, etc.)

## **Data Exchange Providers ONLY**

A separate site has been set up for your organization called "Bridge Access." Please do not change any values in this site. Your Bridge doses will need to be kept under this site. To ensure doses are pulled from the appropriate inventory, and to keep counts separate and accurate, you will need to use an additional value in the RXA-11.4 segment when you submit Bridge doses. One of our data exchange Onboarding Analysts will be in touch with your technical contacts to provide this value.

You will also need to use **V23** (Client is eligible to receive vaccines under the state/program immunization policy) as the reporting eligibility code.

Funding Source will be coded as Public (VXC50), or Public non-VFC (VXC52).

### **Dually Enrolled VFC and Bridge Providers ONLY**

### **Inventory Management**

- Bridge inventory will need to be managed under a Bridge specific sub-site. The sub-site has been created for you and is listed as "Bridge Access"
- Accepting orders:
  - If you order contains Bridge vaccines <u>only</u>, you will select the Bridge Access under the receiving site dropdown, and then select "Accept Transfer"

Accept Entire Transfer		Accept Transfer	
Reject Entire Transfer		Reject Transfer	
Partially Accept Transfer		Partially Accept	
Return to the Previous Screen		Cancel	
Receiving Site			
If you wish to accept all or part of this trans	fer, you must specify the site which will receive the	he inventory in this transfer.	
* Receiving Site CRAVEN C	OUNTY HEALTH DEPARTMENT 🗸		
Adult Heal	th-Craven County Health Dept. COUNTY HEALTH DEPARTMENT		
Sending Entity	Receiving Entity		
	CRAVEN COUNTY HEALTH		

- If your order contains <u>both</u> VFC and Bridge vaccines, accept the entire order to your main site and then complete an internal transfer with your Bridge Vaccines using the following instructions:
  - Select "manage transfers"
  - Select "new transfers"
  - Select "Bridge Access" in the Internal Receiving Site dropdown
  - Enter the number of doses beside the Bridge vaccine lot number
  - Save

#### Administrations

- When documenting the dose administration, please select the correct site under "Organization Site". This will pull NCIR inventory associated with that specific sub-site
  - For Bridge documentation, you will select "Bridge Access"
  - $\circ$  ~ For VFC documentation, you will select the appropriate site
