

NC COVID-19 RESPONSE: HOW ORGANIZATIONS CAN SUBMIT A HELP DESK CASE

This guide provides steps for submitting a Help Desk case as a Frontline Organization/Employer to get help related to the State of North Carolina's COVID-19 Vaccine Management System (CVMS).

Step 1: Navigate to the CVMS Help Desk Portal

- Navigate to the CVMS Help Desk Portal homepage at https://ncgov.servicenowservices.com/csm_vaccine

Step 2: Submit a Help Desk Case Using the “Organization/Employer” Tile

- From the Help Desk Portal homepage, select “ORGANIZATION/EMPLOYER” to view the case intake form.
- Fill out all required fields.
- Within the Request Information section, open the drop-down field labeled “REQUEST TYPE,” and select the appropriate request type from the options. Then, use the “DESCRIPTION OF REQUEST” free-text field to provide more details about your issue or request.

Step 3: Track Changes Made to the Case and Provide Additional Information, If Requested

- Communications from the Help Desk agent assigned to your case will arrive via email. If an agent requests more information or proposes a solution, you will receive a link that will allow you to view agent comments and respond.

Note: If an agent requests more information or proposes a solution and does not receive a response after 8 days, the case will be auto-closed. You will receive two email reminders when a case is approaching closure.

Where can I go for more information?

For additional information, please view the [COVID-19 Resource Page](#).
