Overview

What is the North Carolina Immunization Registry (NCIR)?

The **North Carolina Immunization Registry (NCIR)** is a secure, web-based clinical tool which is the official source for North Carolina immunization information. Immunization providers may access all recorded immunizations administered in North Carolina, regardless of where the immunizations were given.

The purpose of NCIR is:

- To give patients, parents, health care providers, schools and child care facilities timely access to complete, accurate and relevant immunization data;
- To assist in the evaluation of a child's immunization status and identify children who need (or are past due for) immunizations;
- To assist communities in assessing their immunization coverage and identifying areas of under-immunization.

Now, let's get started!

Adding New Users

Adding New Users

Reminder!

In order to add a user into the system, the user **must** have successfully registered with NCID and given you their user ID (i.e. username).

Reminder!

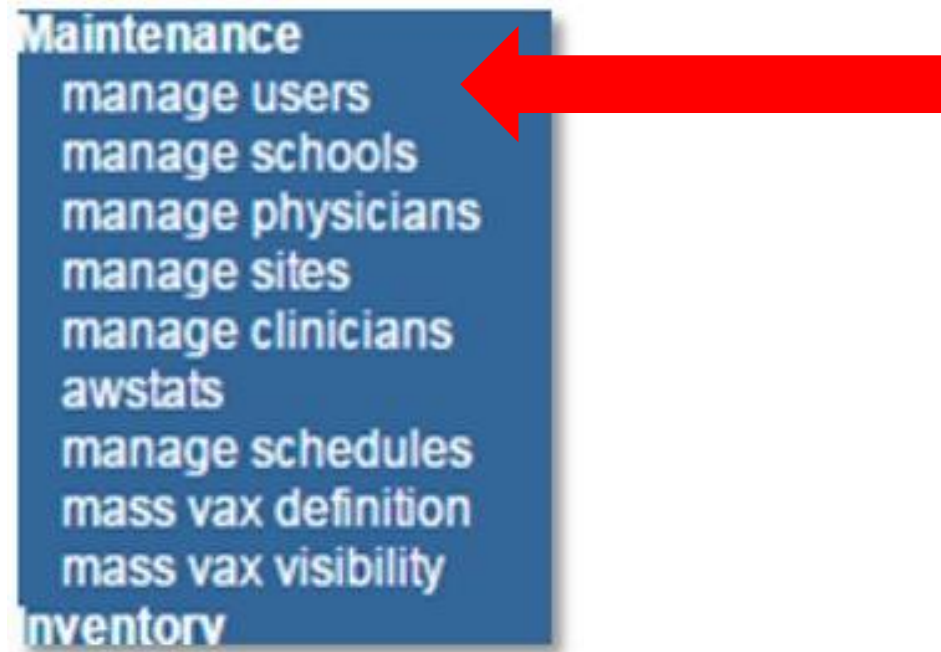

The NCIR Agreement requires the following:

- Each practice must have at least 2 administrators.
- Administrators are responsible for adding new staff and must deactivate users when they leave the practice.
- A copy of the User Confidentiality agreement must be kept on file for all staff who access the NCIR.
- Every user must have their own user ID (multiple users sharing a single account is now allowed).
