

YOU HAVE A
SPOT.

TAKE YOUR
SHOT.

North Carolinians 75 and Over: You have a spot to take your shot against COVID-19.

There's good news for North Carolinians 75 years and older. A tested, safe and effective COVID-19 vaccination is ready for you. Supplies are limited—and you may have to wait. But you have one of the first spots to take your shot.

More than 70,000 people volunteered in clinical trials that showed the vaccines were safe and 95% effective—with no serious safety concerns. There are possible temporary reactions like a sore arm, headache or feeling tired and achy for a day or two.

Your local health department or hospital can help you get your shot.

You can find participating health departments and local hospitals by going to YourSpotYourShot.nc.gov. You can also call the COVID-19 Line **1-877-490-6642**. It's a free call.

Find your spot and take your shot. Get the peace of mind that you, your family and community are protected—and help everyone get back to being together.
